

Guide Safety Diver Job Description

Job Title: Guide Safety Diver
Department: Marine Operations
Report To: Dive Operations Manager
FLSA Status: Non-Exempt

Position Overview

Sea Trek and SNUBA is fast becoming known as the best new tour in the Caribbean. Sea Trek and SNUBA guides take visitors on an underwater guided tour. SNUBA is a cross between snorkeling and scuba diving where guests are able to dive down to about 20 feet while breathing through a regulator that is connected to a tank floats on the surface. Sea trek is a helmet dive where guests walk along the ocean's floor.

This position requires a dedicated individual who is able to take direction from management carrying out various dive functions within Coral World as well as other related projects and programs. This includes all aspects of enhancing the guest experience. It is important that all employees of Coral world foster a positive team environment, while creating a positive visitor experience.

Principal Duties and Responsibilities (Essential Functions):**

- As a member of the Dive Operations team, we expect all team members to lead by example, by being patient, kind, humble, respectful, forgiving, honest, and committed with interacting with each other and with guests.
- Fosters good relations with visitors, volunteers, contractors, and fellow staff members by promoting positive attitudes, good will, cooperation, and providing high standards of service.
- Must be knowledgeable about underwater conditions, cautions, animals, and procedures that exemplify the highest standards of safety and guest experience.
- Participate in all daily aspects of Sea Trek/SNUBA interactive program including: creating positive guest interaction; maintain/uphold strict safety protocols; and take an active role in cleanliness
- Must follow all procedures to assist the guests down the 10-foot ladder, wait for their queuing up and lead them comfortably and safely along the trail
- Must accompany the group in scuba gear with safety equipment ready. He/she is responsible for assisting guests down and up the ladder as well as keeping an eye on them through the tour.
- Each helmet weighs 75 pounds on land (15 pounds in the water) and in this position puts the helmet on each of the guests safely as they descend the ladder.
- This position requires monitoring of the air systems and that the air hoses are always clear.
- Responsible for keeping dive gear and safety equipment properly maintained and serviced
- Must speak to large groups of guests for a dive and safety orientation
